

ChromaDex™ places all catalog items into categories based on the classification of the chemical family. Although most compounds can be classified under more than one family category, where possible, families have been divided into subcategories to more specifically assign characteristics to compounds. This list will continue to be updated periodically, and will soon be added as part of our search feature on the Customer ePortal at [www.chromadex.com](http://www.chromadex.com).

### Chemical Family Hierarchy Reference

Example:

Chemical Family	
Subcategory 1	
	Subcategory 2

.....

Alcohols	
---	

Amines	
Adrenergic amines	
Amides	
	Capsaicinoids
	Isobutylamides
Amino acids	
	Peptides
Biogenic amines	
Carbamates	

Antibiotics	
---	

Biologicals	
---	

## Chemical Family

### Botanicals

Books

BRMs

XRMs

### Enzymes

---

### Flavonoids

Anthocyanidins

Procyanidins

Anthocyanins

Catechins

Theaflavins

Chalcones

Flavanones

Flavones

Isoflavones

### Halogenated derivatives

---

### Heterocyclics

Alkaloids

Imidazoles

Indole derivatives

Neurotransmitters

Oxindole alkaloids

Purines

Pyrimidines

Xanthines

Cannabinoids

Chromones

Coumarins

Furocoumarins

### Heterocyclics (continued)

Furans

Iridoids

Lactones

Kavalactones

Lichen acids

Limonoids

Phthalides

Pterocarpans

### Hydrocarbons

Anthracenes

### Inorganics

---

### Lignans

Bitters

### Oils

Fatty acids

Phospholipids

### Organic acids

Carboxylic acids

### Organometallics

---

### Phenolics

Phenolic acids

Anacardic acids

Stilbenoids

Phenols

Tannins

## Chemical Family

### Pigments

Carotenoids

Dyes

Xanthophylls

### Proteins

---

### Quassinoids

---

### Quinones

Anthraquinones

Hydroquinones

Xanthones

### Substituted aromatics

Aromatic aldehydes

### Sugars

Cyanogenic glucosides

Polysaccharides

### Sulfur derivatives

Glucosinolates

Isothiocyanates

Sulfates

Sulfides

Sulfinic acids

Sulfones

### Taxanes

---

### Terpenes

Cardiac glycosides

Diterpenes

Diterpene glycosides

Phytosterols

Saponins

Sesquiterpenes

Sesquiterpene lactones

Steroids

Terpenoids

Triterpenes

Tetracyclic triterpenic acids

### Toxins

Aflatoxins

Mycotoxins

### Vitamins

Tocopherols

Tocotrienols

ChromaDex™ continuously strives to make improvements in services that will aid you in finding the products that best suit your needs.
