CHROMADEx ANALYTICS

ChromaDex® is an innovative natural products company that discovers, acquires, develops and commercializes proprietary-based ingredient technologies which utilizes ingredient technologies, phytochemicals, chemistry and analytical testing services and product regulatory and safety consulting. The Company provides seamless science-based solutions to the dietary supplement, food & beverage, animal health, cosmetic and pharmaceutical industries.

As a member of the team, you will be at the leading edge of a rapidly growing and profitable industry. ChromaDex is looking for talented and scientifically oriented candidates who are attracted to this vision.

JOB DESCRIPTION: ChromaDex Analytics in Boulder, Colorado has an immediate job openings for part-time entry level Prep Chemists. The right candidates will be responsible for providing sample preparation support, performing certain assays involving UV spec, bench chemistry, Karl Fischer and other assays.

Main duties include:

- Preparing samples and standards for analytical chemists
- Performing wet chemistry analyses as needed
- Understanding and implementation of GMP and GLP standards
- Observing good laboratory practices and adhering to ISO 17025 standards
- Maintain Laboratory in a neat and orderly fashion
- Maintain glassware (cleaning, washing and sterilizing)
- Maintain waste collection containers in the laboratories and properly dispose of solvent waste

Required Competencies:

- Basic laboratory sample preparation skills
- Knowledge of Word, Excel
- Ability to multi-task

Training, Education and Experience:

- BS or BA Degree in Chemistry or a related discipline with little or no industry experience. Applicants in the final two years of a bachelor's degree program will also be accepted.

Job Conditions:

- Must be able to perform routine tasks repeatedly, efficiently, and accurately in a timely manner, occasionally lifting up to 30 lbs.
- Must be able to work in a laboratory setting for extended periods and function safely and effectively under the environmental challenges associated with handling phytochemical raw materials, finished products, or fine chemicals (exposure to chemicals, carcinogens, corrosive and other chemicals).
- Must be able to read, comprehend and utilize MSDS information.
- Must be capable of understanding, listening and following verbal and written instructions to accomplish desired goals and have the ability to communicate effectively verbally and in writing at all levels of the organization.

Interested candidates: Please email resumes to hr@chromadex.com with heading Prep-Chemist for review and consideration. Applicants who do not meet the minimum requirements will not be considered. Selected candidates who meet the minimum requirements will be contacted for phone interviews, however, due to the

volume of applicants, no confirmation will be provided of application status. All replies are confidential and at the company's discretion.

**This position is NOT open to Staffing Agencies or Recruiters.
Unsolicited services or offers will not be accepted at this time.**
